Guidelines for Final Year Project Report

Scheme: 2022 **AY: 2025 – 2026**

Guidelines for Project Report Preparation: -

The final year project report has to be organized in the following order (in alignment with VTU guidelines):

1. Cover Page
2. Inside Title Page (cover page duplicate)
3. Certificate signed by the Guide(s) (in the stipulated format)
4. Declaration signed by the Candidate/s (in the stipulated format)
5. Plagiarism and AI Report
6. Acknowledgements
7. Abstract
8. Table of Contents
9. List of Figures
10. List of Tables
11. Abbreviations/ Notations/ Nomenclature (if any)
12. Text of the Report Chapter 1, Chapter 2,.. Chapter N.
13. References
14. Mapping with POs and PSOs
15. Mapping with SDGs and Missions of Government of India
16. Appendices (if any)

1. The student has to prepare project report with the support of guide as per the guidelines.
2. The student shall mandatorily produce **Plagiarism and AI report** as part of project report using **DrilBit software** from college Library.
3. **The Plagiarism and AI content (individually) should not exceed more than 10%.**

4. Project reports should be typed neatly only on one side of the paper with 1.5 or double line spacing on a A4 size bond paper (210 x 297 mm).
5. The margins should be: Left – 1.25", Right – 1", Top and Bottom – 0.75".
6. Before taking the final printout, the approval of the concerned guide(s) is mandatory and suggested corrections, if any, must be incorporated.
7. For making copies dry tone Xerox is suggested.
8. Every copy of the report must contain Inner title page (White), Outer title page with a plastic cover and certificate in the prescribed format enclosed from both the college and the organization where the project is carried out.
9. The organization of the Chapters should be as follows

   Chapters: (to be numbered in Arabic)

   a. Chapter 1: Introduction, which usually specifies the scope of work and its importance and relation to previous work and the present developments,
   b. Main body of the report divided appropriately into chapters, sections and subsections.
   c. The chapters, sections and subsections may be numbered in the decimal form.
      Ex: Chapter 2, sections as 2.1, 2.2 etc., and subsections as 2.2.3, 2.5.1 etc.
   d. The chapter must be left or right justified (font size 16). Followed by the title of chapter centered (font size 18), section/subsection numbers along with their headings must be left justified with section number and its heading in font size 16 and subsection and its heading in font size 14. The body or the text of the report should have font size 12.

   i. The figures and tables must be numbered chapter wise for e.g.: Fig. 2.1 Block diagram of a serial binary adder, Table 3.1 Primitive flow table, etc.
   ii. The last chapter should contain the summary of the work carried, contributions if any, their utility along with the scope for further work.

10. Reference **(or)** Bibliography: The references should be numbered serially in the order of their occurrence in the text and their numbers should be indicated within square brackets. **Ex: [3]**
11. The section on references should list them in serial order in the following format.

For textbooks – A.V. Oppenheim and R.W. Schafer, Digital Signal Processing, Englewood, N. J. Prentice Hall, 3 Edition, 1975.

For papers – Devid, Insulation design to combat pollution problem, *Proc of IEEE,* PAS, Vol 71, Aug 1981, pp 1901-1907.

12. Only SI units are to be used in the report.
13. The total number of reports to be prepared are, One copy to the department, one copy to the concerned guide(s), Two copies to the sponsoring agency and one copy to the candidate.
14. **Hardware projects must include:** the component layout, complete circuit with the component list containing the name of the component, numbers used, etc. and the main component data sheets as Appendix. At the time of report submissions, the students must hand over a copy of these details to the project coordinator and see that they are entered in proper registers maintained in the department.
15. **Software projects must include**: a virus free disc, containing the software developed by them along with the read me file. Read me file should contain the details of the variables used, salient features of the software and procedure of using them: compiling procedure, details of the computer hardware/software requirements to run the same, etc. If the developed software uses any public domain software downloaded from some site, then the address of the site along with the module name etc. must be included on a separate sheet. It must be properly acknowledged

    In the acknowledgments section.
16. **Sponsored Projects** must also satisfy the above requirements along with statement of accounts, bills for the same dully attested by the concerned guides to process further, They must also produce NOC from the concerned guide before taking the internal viva examination. The reports submitted to the department/guide(s) must be hard bounded, with a plastic covering.

17. Mapping with Pos and PSOs

POs	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11
Correlation											

(Give table data in terms of S or M or L correlation of Project with PO)

18. Mapping with Sustainable Development Goals (SDGs)

Areas of the Project Work	Relevant SDGs	How the Project Contributes

Colour of the Outer Cover/Front Page of UG Dissertation / Project Report

Sl. No.	UG Course	Colour
1	Electronics & Communication Engineering	PURPLE
2	Computer Science and Information Science and Engineering (CS/IS) & Allied Branches	CREAM
3	Mechanical Engineering	SKY BLUE
4	Civil Engineering	GREY
